

CASE STUDY

Precision Planting Mobile Classroom

Precision Planting, headquartered in Tremont, IL, is the headquarters for new ideas and technology to better seed spacing, better depth control and better root systems. This family business includes proprietary meter components, including the MeterMax meter calibration system, 20/20 SeedSense and 20/20 AirForce.

Craftsmen custom-built a 53-ft double expandable trailer for Precision Planting, equipped with a 28-ft x 4-ft custom projection screen.

- (5) Projectors
- (10) Ceiling Speakers
- Rear Wall Hydraulically Hinges to Create Canopy
- Rear Stair System and Handrails
- Exterior and Interior Graphics Package
- Interior Track Lighting
- Simulated Wood Vinyl Flooring, Two Colors
- 32-ft Gooseneck Support Trailer with Spot Graphics Package

Precision Planting is debuting the classroom trainer at the 2010 Precision Planting Winter Conference beginning January 5th. The trailer is equipped with a projector that will play a video informing the farmers about the benefits and capabilities of Precision Planting technology.
