On your mark, get set...

Beginning in early March at Houston Raceway Park, American Drag Racing League (ADRL) began touring and is scheduled to race at ten nationwide locations. Craftsmen was thrilled to take part in one of the most important elements of the race event- the car graphics. Craftsmen installers applied the graphics to red team's Joshua Hernandez's '68 Camaro and blue team's Travis Swearingen's '41 Willis.

Craftsmen also wrapped the '57 Chevy Hernandez drove last season, but at this time, the car will be debuted as a show car. All of the cars are transported from city to city in a fully wrapped 53-foot race car trailer. Craftsmen printed the National Guard-branded graphics and applied the full wrap at Craftsmen's St. Charles, MO facility. Each trailer is equipped with a car lift gate. Craftsmen fabricated and installed a race-style awning onto the team blue trailer.

Craftsmen printed the car graphics in-house on 3M™'s 180CV3 with luster laminate. The trailer graphics were printed on 3M™'s 180CV3 with UV laminate on Craftsmen's highly efficient TurboJet printer. Let the racing season begin!
