## Fabrication and Installation: Sammy Hagar's Restaurant in St. Louis, MO Casino

Sammy's Beach Bar & Grill recently opened its doors at Harrah's Casino in St. Louis, MO. Craftsmen had the opportunity to work directly with Harrah's team to provide unique and custom-fabricated elements for the Sammy Hagar restaurant. The custom elements included a 12-foot by 10-foot foam guitar pick with channel lettering, three thatched awnings, channel lit letters, and authentic bamboo, all of which Craftsmen installed. The bamboo covered approximately 1,000 square feet. Craftsmen also printed and applied graphics to the mounted surfboards featured above the restaurant entrance.
